Key Insights

- * Some countries generate significantly higher sales than others, making them the primary contributors to overall revenue.
- * A small number of chocolate products account for most of the company's sales, showing which products are the most popular.
- * Certain salespersons consistently achieve better sales results, indicating strong sales performance and customer engagement.
- * Monthly sales patterns reveal peak and slow sales periods, which can help in forecasting future demand.
- * Shipment quantities vary across products and countries, highlighting differences in customer demand and distribution requirements.

Recommendations

- * Maintain adequate inventory of the best-selling products to avoid stock shortages during periods of high demand.
- * Recognize and reward top-performing salespersons to encourage continued high performance and motivate the sales team.
- * Strengthen promotional activities and marketing efforts in countries with lower sales to improve market performance.
- * Use monthly sales trends to plan production and inventory more effectively, reducing both overstocking and stockouts.
- * Improve shipping and distribution planning for products with high shipment volumes to ensure timely delivery and lower logistics costs.
